

OBSERVATIONS:

Plan:

Four horizontal lines for planning.

Prepare & Maintain:

Seven horizontal lines for preparation and maintenance notes.

Plant:

Four horizontal lines for planting notes.

Harvest:

Four horizontal lines for harvest notes.

SOW & PLANT BY ZONE

Zone 6 can plant potatoes, and move cauliflower and broccoli transplants outdoors to a cold frame.

Zone 7 can start planting broccoli, cauliflower and peas.

Zone 8 now can begin planting beets, broccoli, cabbage, carrots, cauliflower, kale, lettuce, peas, spinach and tomatoes.

Zones 9-10 can plant all the same plants as zone 8 with the addition of corn, beans, cucumbers, and peppers.

INDOORS

Zone 6-8 can start seeds for beets, cabbage, carrots, kale, lettuce, onions, peppers, spinach and tomatoes and beans.

Zones 9-10 can start seeds for Brussels sprouts and squash.

HARVEST BY ZONE

Zone 9-10 continue to harvest broccoli, lettuce, peas, and spinach as they become ready.
