

OBSERVATIONS:

Plan:

Four horizontal red lines for planning.

Prepare & Maintain:

Seven horizontal red lines for preparation and maintenance notes.

Plant:

Four horizontal red lines for planting notes.

Harvest:

Four horizontal red lines for harvest notes.

**SOW & PLANT BY ZONE**

Zone 4 can plant any remaining beets, broccoli, and carrots as well as fast-growing cool weather lettuces, and spinach in cold frames.

Zones 5-6 can plant any remaining beans, beets, broccoli, cabbage, Brussel sprouts, carrots, and spinach.

Zones 7-8 can sow seeds of corn, cucumbers, squash, and dill in the garden. Set out transplants of tomatoes, peppers, basil, and eggplant for fall harvest. Transplant any indoor seedlings of broccoli, cauliflower, collards, chard, and cabbage into the garden, but be prepared to cover them with shade cloth if temps get above 90 degrees.

**INDOORS**

Zone 6 can start carrots, kale, lettuce and peas

**HARVEST BY ZONE**

All climates should harvest anything that is ripe, including beans, chard, cucumbers, eggplant, tomatoes, melons, okra, onions, peppers, squash, and potatoes.
