SOW & PLANT BY ZONE

Zones 4-6 can plant garlic and shallots, as well as spinach and parsnips in a cold frame.

Zones 7-10 can plant garlic, leeks, onions, and shallots. They can also sow seeds of beets, carrots, mustard, turnips, spinach, lettuce, Chinese cabbage, radishes, and bok choy. Set out strawberry plants. Plant trees and shrubs.

Zones 9-10 can make a final planting of tomatoes, peppers, and eggplant.

INDOORS

Zones 7-10 can sow cool weather veggie seeds for transplanting

HARVEST BY ZONE

Zones 4-7 can harvest and enjoy spinach, lettuce, parsnips, kale, Brussels sprouts, cabbage, and carrots. These gardeners can also begin digging sweet potatoes (time it as the leaves start to fall) and harvest winter squash.

Zones 7-10 can continue to harvest squash, late season tomatoes, peppers, radishes, broccoli, beans, bok choy, eggplant, kale, and lettuce.
